## Link Canada to Plot Arm Jew Terrorists

TORONTO, (CP)—The Toronto Daily Star in a dispatch from Niagara Falls, Ont., Thursday said that "police investigation into the attempt of two men to smuggle Bren machine guns into the U.S. has revealed a plot existed to send them to underground forces in Palestine."

The report added that as a result of investigation an official said "it is expected that the War Assets Corp., who sold the guns originally to a Toronto man, will tighten up on sales in the future."

Investigation has been conducted by the R.C.M.P. the department of national defence, the U.S. war department and the F.B.I. and the probe "is said to have revealed a wealthy New York man was behind the move to import the guns into the U.S. illegally."

The man was said to have "made a deal with the owner of an engineering plant in the Toronto district to make parts for the machine guns. Arrested as they entered the United States last month, two men who had hidden parts in their suitcases are now on trial on charges of smuggling the guns."

## No-Confidence Motions Lost As House Debate Concludes

### One Good Deed Deserves Another

GOVERNMENT, (AP)—One trainee who was supposed to be an American agent for a tree and took part in religious service, sought to keep the kindness of the American people from being lost. He left a note on the basement wall which read:

"I've found your light meter so I won't register."

### British Call-Ups Continue to 1954

LONDON, (AP)—Britain's peacetime conscription will continue at least until 1954.

That fact became known Wednesday night when the government announced that conscription will be extended to 1954.

## New R.C.A.F. Commander Confers Here Before Taking Over

Says U.S. Sift Records of 2,000,000

MOSCOW, (AP)—State Secretary Marshall, speaking on de-Nazification before the foreign ministers Thursday, said that the United States has been disturbed by frequent reports in the Soviet zone of Germany that former active Nazis may be cleared by joining the Socialist Unity (Communist) party.

Apparently speaking to forecast an expected Soviet attack on American neo-de-Nazification, Marshall read a three-page statement relating that 12,000,000 persons have been registered for investigation, 200,000 from the Soviet zone and 370,000 from the American zone.

The secretary added that the American neo-de-Nazification was "far beyond Allied control authority directives," and asserted "there is nothing to conceal."

He pointed out that the Allied control council had not received full reports on de-Nazification in the western (Soviet) zone of Germany and added "my government opposes the use of de-Nazification in favor of any political party."

The Moscow news figures regarding the number of Hitlerites who had been put on trial or were being tried in Germany were prominent Hitlerites were still at large, the broadcast said.

Continuing to inform the Soviet foreign ministers of the results of his statements of Soviet views on German de-Nazification, Marshall said that the German people were still at large, the broadcast said.

## Official "hounding over" ceremony in which Air Vice Marshal Kenneth H. Guthrie took over as air officer commanding North West Air Command with headquarters in Edmonton, took place at 3:09 p.m. Thursday in the R.C.A.F. drill hall. At that parade, the new air officer commanding

new A.O.C. received the command from Air Commander R.C. Gordon, who will leave Edmonton for a brief post in Washington. Air Vice Marshal Guthrie's new command takes in all western Canadian air forces. The ceremony was announced by Ottawa. Pictured above is the new air officer commanding

## Truman's Speech Interpreted War on Totalitarian Forces

WASHINGTON, (AP)—In his delivery, it was probably the best speech of the president since he took office. In its content, it was among the gravest personal speeches any American president ever made.

As he stepped out to lift the hood—and found a cat with his legs caught in the fan belt. Police freed the animal.

## Jury Dismisses Drew Libel Suit

TORONTO, (CP)—The special jury trying the libel action brought by Premier Drew of Ontario against the Toronto Star Ltd. and Publisher J.E. Althouse Wednesday found no libel.

John R. Cartwright, counsel for the Star, announced that the jury had found no libel. The jury had found no libel.

bilities of dominion and provincial governments.

The final vote, defeating the Progressive Conservative amendment, brought to a close the debate on the speech from the throne and cleared the way for consideration of emergency legislation which must be passed before March 31 if the government is to be able to continue emergency controls.

Transport Minister Chretien said he must be able to make a statement Friday on the price of food grain for poultry.

Progressive Conservative leader Bracken, speaking to the Social Credit amendment, said that certain of the legislation brought down during the present session was "leaning toward totalitarianism."

The government had allowed conditions to develop which encouraged the growth of Communism and other forms of totalitarianism. He agreed with practically all points in the Social Credit amendment but could not see his way clear to support the amendment.

The M'P's, Lash and other members of the opposition, said that the government had allowed conditions to develop which encouraged the growth of Communism and other forms of totalitarianism. He agreed with practically all points in the Social Credit amendment but could not see his way clear to support the amendment.

# Totalitarianism To Be Combated

(Continued from Page 1)

cent of the \$451,000,000 "investment in world freedom and world peace" the U.S. made during the war for the purpose of making sure that it was not in vain.

Mr. Truman had looked like anything but a "do-gooder" when he was elected to the post in the house of congress in joint session. He appeared more than ready to make sure that Washington has seen him in many months.

The lowest grain which is a Truman trademark was notably missing. The gravity of the appeal he was making to congress for aid to Greece and Turkey in raising Communist pressure was underlined by a gap in the row of chairs on which the speaker was seated at the front of the chamber.

Washington gossip had it that the absence of any member of the delegation was the result of the foreknowledge of the contents of the president's speech and it is a deliberate protest of them.

The name of Russia never appeared in the 30 solemn minutes of an address which appeared, if anything, to take added emphasis from the fact that it was not there.

# B.C. Boy Suffers Illness on Train

CALOGNY, (CP) — Alan MacPhail, four-year-old Nelson, B.C. boy whose case has attracted widespread interest over the past four months, was taken off a southbound train at Clearbrook, about 80 miles south of here, Wednesday night and placed in hospital there.

The physician attending him said the boy had had a hemorrhage on the train. His condition, however, was "not too bad" but the doctor was unwilling to estimate how long it would be before he could be sent home.

The child's mother, Mrs. A. A. MacPhail, and his grandmother, Mrs. J. MacPhail, were in the train when it was stopped at Clearbrook. They were told that the boy was ill and that he should be taken to hospital.

# Chamber Invites Rail Rates Probe

(Continued from Page 1)

in rate making," that the ton-mile rate should be lower on long haul, westward than on short haul, eastward, in central Canada, it is argued.

The briefs against the United States laid down in 1914, prohibiting railroads from charging more for a shorter haul than for a longer haul over the same line, was a long haul, had not been applied to Canada. Aburdity of this, as affecting Edmonton, is illustrated by the rate charges on a shipment from Alberta, Cdn. to Edmonton, about 100 miles, at \$1.08, while on a similar shipment from Vancouver, B.C. to Edmonton, about 1,000 miles, at \$1.08.

Adverse effect on Alberta of "uneconomic scale." As the west coast in many instances is a natural outlet and inlet for Alberta production and consumption, extremely high mountain rates for long hauls are a disadvantage to the province.

Other points in this section include placing information at the disposal of the public, and the establishment of a public utility commission to regulate the rates of the railways.

# NEW TOWN FOUND FOR DRUGS

Residents at New Grange, near the hospital in Dublin, think they may have found a new town for penicillin. Veterinarian T. J. Daly reports he is making tests on cattle of the hospital herd with penicillin in solution in the treatment of chronic mastitis and that, thus far, results are promising. The agricultural department at Ballinacorney is interested in the experiments.

## Appeals for Wider Immigration Plan

By John Bird

OTTAWA.—An urgent appeal to the government to increase the immigration policy was made Thursday from the Liberal benches. It came from none other than Walter Tucker, parliamentary assistant to the minister of veterans' affairs and Liberal organizer in Saskatchewan.

Mr. Tucker said that every one believed Canada to be a land of "unbounded possibilities," one of the richest areas on the earth's surface. There was no question but that immigration would have to be encouraged later, then why not sooner?

Meanwhile Canada was losing an unique opportunity, with 800,000 refugees waiting in concentration camps for displaced persons in Europe. These people were ready for Canada, he said. "They have picked themselves as desirable immigrants for Canada by virtue of the fact that they are in these camps because they are against totalitarianism, against Communism and so on."

Mr. Tucker made a special plea to the government to admit the families of Europeans who, by the recent slight relaxation of regulations, were permitted to enter Canada as agricultural, mining or lumber workers. It was not right, he said, to ask a man to leave his wife and family behind in unsettled Europe.

If Canada did not act soon, he might well miss the chance. Mr. Tucker indicated. The Scandinavian countries, Britain, and the United States behind the iron curtain were not likely to permit much emigration. That awaiting band of 800,000 displaced persons offered the best immigration training pool likely to be available for years.

Mr. Tucker, speaking of freight rates in Canada called attention to the greatly increased cost of rail haulage because of the unproductive stretch of track between industrial Ontario and Winnipeg. He wanted freight rates to be from the west cut down by treating this expensive haulage area as a "bridge" for the cost of which the whole country, not just the west, should pay.

The Canadian Press reported that a Liberal senator attacked the "deadly deliberation" of government immigration policy. "Canada is hiding ourselves that to Canada is a ticket to heaven."

With the prompt support of the leader of the opposition, Senator Arthur Meighen, L.N., Ontario, offered a powerful call for an open door to selective immigration rather than the current "quota" and inconsiderable interpretation of narrow rules despite circumstances of appalling hardship.

Senator John T. Haig, Progressive Conservative leader, backed him in urging particularly the admission of friends and relatives of Canadians who could and would accept continuing responsibility for them.

Mr. M. MacPherson, Saskatchewan counsel, asked him if the fact trucking charges were continued in a company financial statement introduced Tuesday Mr. Ham said it sidestepped and bypassed the service earned about \$2,000,000 a year.

Dead periods recently filled the beaches of North Island, New Zealand, for the first time in 14 years, following heavy weather at sea.

## U.K. Storms Claim 1,000,000 Sheep

LONDON, (CP).—The United Kingdom's program of enlarging the country's livestock herds has received a shattering blow at its start with an estimated 1,000,000 sheep dead in storms and the worst lambing season in history in prospect.

Government and farm organization spokesmen here said reports from rural areas were incomplete and some farmers were finding sheep had survived long periods in snow without food "but it looks bad."

One London newspaper, the Daily Telegraph, said it was estimated one-third of the sheep in England and Wales were dead from exposure — an estimate which would mean more than 3,000,000 casualties. In Scotland, where there are nearly 8,000,000 sheep of the hardiest breed, losses are expected to be somewhat less.

Mr. and Mrs. Jack Harper, reunited after 17 years. At that time the couple agreed to separate on Governor Island. Mrs. Clara F. Harper called for Canada in 1939 and after a year's correspondence, heard nothing of her husband. Refusing his dead, she married in 1942. Last October Jack Harper located her when he needed her signature to sell some property. The Hamilton, Ont., woman and her original husband decided to go back together again, so Mrs. Harper applied for and was granted an annulment to her second marriage. The Harpers plan to reside in Buffalo, N.Y.

Meat Production Declines in 1946

OTTAWA, (CP).—Statistics on Canada's meat output in 1946 showed a decline of 14.7 percent from the 1945 output.

Main decline was shown in hog production, which fell from a peak of 1,200,000,000 pounds in 1945 to an estimated 1,115,000,000 in 1946, a drop of 7.5 percent. Output of beef and veal at 1,185,000,000 was six percent below 1945 while mutton and lamb production actually showed a slight increase.

Canada's eating habits followed closely the production changes. While beef consumption increased 2.6 pounds per capita, pork consumption dropped 13 pounds. Veal consumption was 1.4 pounds less than in 1945 while consumption of mutton and lamb was 4.8 pounds per person compared with 4.7 in 1945.
